# PROCLAMATION

## “PRESCOTT SWEET ADELINES DAY”

*June 7, 2011*

WHEREAS, Prescott’s own Song of the Pines group strives to bring quality entertainment to our City; and

WHEREAS, the Song of the Pines group won the Region 21, Division A trophy on April 24, 2011 during competition in California; and

WHEREAS, Prescott’s Song of the Pines group will represent our region at the International Sweet Adeline’s Competition this October in Houston, Texas; and

WHEREAS, June kicks off an exciting new season inviting women of all ages to consider singing in a fun-loving, competitive show chorus; and

WHEREAS, Region 21 summer camp (Camp Ringing Pines) will take place at the Prescott Resort June 25-27 under the direction of Kim Hulbert, Lori Lyford and Pam Pieson.

NOW THEREFORE, I, Marlin D. Kuykendall, Mayor of the City of Prescott, Arizona do hereby proclaim June 7, 2011 as:

## *PRESCOTT SWEET ADELINES DAY*

IN WITNESS THEREOF, I have hereunto set my hand and caused the Seal of the City of Prescott to be affixed this 7<sup>th</sup> day of June 2011.

  
MARLIN D. KUYKENDALL, MAYOR  
City of Prescott

ATTEST:

  
ELIZABETH A. BURKE, CITY CLERK  
City of Prescott

# GRANITE DELLS PRESERVATION FOUNDATION

- > partnering to enhance land management
- > educating on historical, cultural, & ecological values
- > protecting ecological and scenic integrity
- > advising & enhancing recreation and tourism
- > fundraising for all of the above

### Fundraising

Funds raised by the foundation are only restricted by the desires of the donor and can be used for any purpose allowable by law consistent with the bylaws of the foundation.

Funds may be used for diverse projects such as preserving historic buildings or for the development of amenities and enhancements such as new trails for public use.

### Grants

The foundation and its partners can apply for specific grants.

Photos © Walt Anderson

The foundation will provide permanence to insure that all of the terms and objectives of the grant are met fully.

### Open Space Management

The Dells area, including the Lakes, requires a fulltime management staff for existing and future open space properties. Foundation funds and grant funds may be leveraged to address these needs.

The foundation and its partners can also address utilizing the substantial volunteer capabilities of the community in general.

## Water

Local environmental health is dependent upon maintaining or improving water quality in the Granite Dells, including Watson and Willow Lakes and the Granite Creek and Willow Creek watersheds.

Photos © Walt Anderson

## Economic Resource

The Granite Dells are unique, in a state noted for its spectacular natural attractions. Preserved and enhanced, they can be an environmental magnet attracting visitors from all over the state and the nation. With a combination of unique rock formations, lakes and streams and natural beauty, they can provide diverse recreational experiences (e.g., hiking, biking, birding, non-motorized boating) for all levels. The potential for a "lake to lake" trail through the scenic Dells adds to the existing Peavine, Iron King and Circle trails.

## Public Education

- Ecology
- History
- Cultural
- Economic

## GRANITE DELLS PRESERVATION FOUNDATION

***The Granite Dells Preservation Foundation was incorporated in Arizona in June 2010 for the benefit and preservation of the Granite Dells; protection of the environmental and scenic integrity; education of the public regarding the ecology, history, cultural, and economic values of the area; and other non-profit functions which may benefit the area and the foundation.***

### **Continuity**

The Granite Dells Preservation Foundation provides continuity to protect the environmental and scenic integrity of the Granite Dells. Potential foundation donors and prospective sellers are assured that their goals for the preservation of their property will be shared by dedicated directors, all with a passion and love for the Dells. Additionally, the Granite Dells Preservation Foundation provides a supplemental funding source for open space acquisitions and management operations.

### **Fundraising**

Funds raised by the foundation are only restricted by the desires of the donor and can be used for any purpose allowable by law consistent with the bylaws of the foundation. Funds may be used for diverse projects such as preserving historic buildings or for the development of amenities and enhancements such as new trails for public use. The funds developed through the foundation will serve a growing need due to the fact that the 1% Open Space Sales Tax funds are limited to land acquisition only and are set to expire in 2015.

### **Grants**

The foundation and its partners can apply for specific grants. The foundation will provide permanence to insure that all of the terms and objectives of the grant are met fully.

### **Committees/Partners**

In addition to the inherent strengths of a foundation, standing or ad-hoc committees can be formed for special projects or to carry out the objectives of the foundation.

Partnerships can also be established to further the objectives of the foundation through collaborative efforts. These partners may include corporations, other non-profits, and municipalities, including City of Prescott, Prescott Valley, Chino Valley, Yavapai County, State of Arizona, etc.

### **Open Space Management**

The Dells area, including the Lakes, requires a fulltime management staff for existing and future open space properties. Foundation funds and grant funds may be leveraged to address these needs.

The foundation and its partners can also address utilizing the substantial volunteer capabilities of the community in general.

### **Protection**

The foundation and its partners can assist in ensuring that all open space in the Dells is protected by legal means in perpetuity. The “Payne at Granite Dells Conservation Easement” on 32 acres in the Dells and the “Boyle-Debusk Conservation Easement” with the Central Arizona Land Trust are examples of comprehensive protection.

The protection requirements are not limited to newly acquired open space in the area. The foundation and its partners can assist in extending protection through other devices such as conservation easements with any of the property owners in the area.

### **Water**

Local environmental health is dependent upon maintaining or improving water quality in the Granite Dells, including Watson and Willow Lakes and the Granite Creek and Willow Creek watersheds.

### **Economic Resource**

The Granite Dells are unique, in a state noted for its spectacular natural attractions. Preserved and enhanced, they can be an environmental magnet attracting visitors from all over the state and the nation. With a combination of unique rock formations, lakes and streams and natural beauty, they can provide diverse recreational experiences (e.g., hiking, biking, birding, non-motorized boating) for all levels. The potential for a “lake to lake” trail through the scenic Dells adds to the existing Peavine, Iron King and Circle trails.

With its proximity to the Grand Canyon, Granite Dells offers an extended secondary destination for national and international travelers.
