

IFB # 2015-100
SCBA Masks
Addendum No. 1
November 19, 2015

Questions and Answers

Bids are due on December 3rd per the revised document posted on the City of Prescott website.

The complete unit quantity reflecting on the fee schedule has been revised from 58 to 45. Please refer to the adjusted fee schedule (form B).

- 1. Can a separate line item be provided for the Radio Interface System be added onto page #14 for the bidding process?**

Please refer to the adjusted fee schedule (form B).

- 2. I have a question about the fit test masks on page #5. Are you wanting to purchase these items as shown with a quantity of 3 or are you wanting these to be supplied for the initial fit testing process?**

Fit test masks with adapters compatible with our OHD Fit Tester to be supplied for the initial fit testing process in the following sizes:

- 1 Small
- 1 Medium
- 1 Large

These will be included as a separate line item to be part of the bid as we perform our own fit testing (if your SCBA manufacturer makes a 4th size; I.E. Extra Large; please do not include at this time).

- 3. If it is an item that you are wanting to purchase then it is not shown on Page #14 as a separate line item and it probably should need to have 4 sizes of masks S,M,L & XL in order to cover all mask sizes.**

Please refer to the adjusted fee schedule (form B).

Additional information:

- Training classes – 8 classes to cover training for all personnel on the use of the new units.
- An additional SCBA technician class for 6 personnel to be trained on maintenance and servicing of the new units on our Posi-Chek3 testing machine with required adapters needed to perform the testing on our Posi-Chek3.
