

Addendum No. 1-March 4, 2015  
IFB # FF2015-003  
Alarm Monitoring and Fire Suppression Services

Questions

---

1. In the contract, under pricing, what constitutes a “control panel”, by your definition?  
**Fire panels are what we call control panels.**
2. Do you have a list of the panel types and number and types of devices on each? **No, we do not.**  
This information would be extremely helpful to provide the most accurate proposal for you.
3. Do you have any cellular dialers for these panels. **No.**
4. Are we required to provide pricing for the monitoring services as well or can we just provide pricing for the fire suppression services (page 11)? **You may provide pricing for one or all of the requirements. For example; you may bid on the monitoring portion or the fire suppression or both but we would prefer both fire suppression and monitoring services in the bid.**
