YOU CAN HELP PREPARE OUR KIDS, AND OUR STATE, FOR SUCCESS.

A child’s most important developmental years are those leading up to kindergarten. First Things First partners with Arizona parents and communities to help kids five and younger receive the early education, quality healthcare and family support they need to start school healthy and ready to succeed.

_The Big Kids and Little Kids Book is brought to you in part by the First Things First Yavapai Regional Partnership Council. Visit us online at www.azftf.gov/yavapai._

For more information, contact Cindy Pemberton, 928-776-0062 or cpemberton@azftf.gov.

There’s no better way to protect our communities—both now and long after your grandchildren’s grandchildren are grown—than through an endowment with the Yavapai County Community Foundation. Endowments are created and supported by people just like you, who want to make a permanent, sustainable impact on causes close to their heart. And best of all, endowments continue to grow forever.

Make a lasting impact on your community. Call Yavapai County Community Foundation North Central Regional Manager Carol Chamberlain at (928) 708-9632 to find out more about the power of endowment, or visit www.yavapaifoundation.org.

When it comes to health, wellness and happiness, one size doesn’t fit all. So we carefully tailor every program at Yavapai Regional Medical Center (YRMC) to meet the exact needs of those in our community. We can help you prepare for all of life’s changes and you can count on us to be there when you need us most.

We are proud to offer families and children in Western Yavapai County comprehensive healthcare resources, including:

- Childbirth classes at YRMC East in Prescott Valley
- Basic medical and dental care for underinsured and uninsured children through our Partners for Healthy Students Program
- Resources to care for newborns and parenting education through our First Steps and Healthy Families programs

To learn more about these programs, and other health and wellness resources, please contact the YRMC Community Outreach Department at (928) 771-5738.

May they grow happy, healthy, and wise.

Kids of every size hold a big place in our hearts.

Founded in 1996, there are now 32 Centers around the world. The challenge for boys in today’s world is greater than ever. Boys have too few positive role models and far too many negative examples of masculinity. We provide boys with mentoring and modeling so that they learn integrity, accountability, compassion and respect. We help boys develop responsibility and guide them toward healthy manhood. Boys to Men has developed a four-part program that addresses the needs of boys: A Mentor Training designed to give mentors a deeper understanding of today’s teenagers; a Rites of Passage Adventure Weekend (ROPAW) that begins the journey for boys toward manhood with committed support from the men in the community; Group Mentoring where boys continue to interact with healthy male role models through bi-weekly community gatherings, and School Based Mentoring where mentors meet weekly with boys in their school. The Prescott Area Center of North Central AZ was formed in the fall of 2008 and has produced eight Rites of Passage Adventure Weekends. It also has an association with Yavapai Big Brothers/ Big Sisters in which it provides the weekend and ongoing group mentoring for unmatched Littles who are teenage boys. AGENCY SELF-DESCRIPTION:
The Camp Soaring Eagle Foundation provides camping experiences to children and family members from across Arizona with chronic and life threatening illnesses. Camp Soaring Eagle delivers the healing power of laughter through three different program offerings: Camper Weekends, Family Retreats, and the Flying with Camp Soaring Eagle Travel Programs.

Camper Weekends: Illness-specific camper weekends are held throughout the year at various locations in northern Arizona which provide our campers with a necessary escape from the valley heat. Campers travel by motor coach from Phoenix on Friday afternoons with their fellow campers, counselors and medical staff to Camp where they enjoy a weekend with their peers, sharing experiences, trying new things and most importantly just being kids.

Family Retreat: The Family Retreat programs provide an important forum where families who are struggling with childhood illnesses can share their experiences and successes with others in similar situations.

Flying with Camp Soaring Eagle Travel Programs: These programs give our older campers the opportunity to truly spread their wings and meet kids like themselves from around the world who face the same challenges they do. Campers, volunteers and medical personnel travel to some of the finest medically based camps in the country for these travel sessions.

The value of Camp was beautifully articulated by one of our camper parents who said Camp is an authentic community founded on the simple concepts of kindness, compassion and unconditional acceptance: a safe haven without limitations... an escape millions of miles away from the harsh reality of a life spent in fear of the next needle, hospital visit or brain seizure... Camp cares for the body, cures the heart and allows the soul to soar to new heights of happiness. Centaur Leadership Services is a not-for-profit 501(c)(3) organization under the auspices of Prescott College. Our mental health programming seeks to motivate personal growth and change through the mediating presence of one or more horses in the therapeutic process. We recognize that horses are large, intelligent animals that can teach young people and their parents about living and working together and help them make discoveries about themselves. Understanding and respect for ourselves, each other and for the horses we work with provide the foundation for all of the work we do.

Our Youth Leadership Program runs half-day to 21-day courses for community youth, ages 7 to 17. We teach the responsible care and treatment of horses as well as horsemanship skills based on understanding and respect. Students are given the opportunity to practice personal success while enjoying the laughter, fun, friendship and fulfillment of learning and growing together. Our single-day, multi-day, girl-only or coed programs combine the best aspects of adventure education and relationship horsemanship to create powerful and unique group learning experiences. Our Mental Health services provide children and families with support and motivation for personal growth and change through structured interactions with horses as part of the therapeutic process. This experiential approach to therapy uses horses to help youth. People identify and address a variety of challenges including addiction and victimization issues, as well as communication, relationship and behavior difficulties. Our qualified staff and horses provide a way to create positive personal changes. (Revised 11/7/2012)

The Home Repair Program grew out of an awareness that a significant number of homes in the greater Prescott area do not provide their owners with minimum standards for health and safety. The Home Repair goal is to improve health and safety conditions for very low-income homeowners who are living in substandard, unsafe housing. Most clients are elderly, disabled or families with children and do not have the skills or financial means to improve their conditions. Using donated funds, materials and services, a volunteer workforce performs repairs or may contract work to local businesses. We are the only organization offering this kind of program in our area.

Therapeutic Riding Program: This program provides opportunities for individuals with disabilities to realize their physical, cognitive, emotional and recreational goals, and is designed to promote, improve and normalize muscle tone and strength, balance, reflexes and motor planning, postural alignment, encourage sensory stimulation and integration, develop receptive and expressive language skills, encourage self confidence through structured risk-taking, and develop choice-making, goal-setting, sequencing and problem-solving skills.

Equine Assisted Therapy Program: The exposure of our psyches to a healthy, unfamiliar experience can create a precursor and catalyst for change. The concept for working with the horses is outlined as principles or tasks to encourage the participant to set personal goals, which may include the following: improve self esteem, develop trust in a safe environment, encourage socialization skills, develop choice-making and goal-setting skills, learn congruent communication skills, establish appropriate boundary-setting skills, promote pro-social attitudes through care giving, increase focus and attention span, and become mindful of the relationship of feelings to behaviors.

Down Range: A new service for returning veterans to assist them in fitting back in to civilian life, including community and family relationships. HALLELUJAH HORSE RANCH FOR YOUTH

CONTACT:
Phone: (928) 237-5564
Address: 7755 N. Williamson Valley Rd., Prescott AZ 86305
E-mail: HHRYusa@yahoo.com • Web site: http://www.hhry.org

MISSION:
HHRY strives to be that place where people can connect with animals, be listened to by a trained compassionate volunteer while providing the gift of an extraordinary horse experience.

AGENCY SELF-DESCRIPTION:
A Free Ranch where hope is offered and people find joy in a hurting world. Our gates are open to all who have emotional struggles no matter the age. We find individuals and groups such as Big Brothers and Big Sisters greatly benefit by bringing their Littles to the ranch. We especially welcome returning, past and current military and their families. The ranch provides a place where people can experience acceptance and through work with horses, develop confidence that heals them and becomes a bridge to their families.

We will continually increase our ability to provide an environment of safety; ignite hope by offering association with a rescued horse’s vast giving heart, a trained volunteer’s compassionate ear and gently reminding the child that they do matter, they can be loved, and are valuable; maintain a welcome ranch environment which encourages full family participation; refresh and empower leaders by building confidence, strengthening vision, empowering dreams.

When a hurting child remembers the ranch, our goal when she or he was here was to firmly instill into that little mind that they are and can be loved unconditionally. We want this place to be the first memory of hope that floods a child’s mind when they feel lost. We want the kind eyes and gentle heart of a giant horse to come flooding back into that little memory when a child is lost in doubt and fear. When the kindness of those volunteers and animals at the ranch becomes a standard for that struggling child in a world where despair can easily become the norm, and upon remembering the ranch, that child smiles at the thought, then the ranch met its goal.

When a troubled teen thinks on the ranch, our goal, for the time we had them, was to remind him that they are very precious and can be loved for who they are and not what they can do or become. We strive to provide the attachment between a horse, mentor and teen that builds a bridge of hope. If joy and peace and a deep desire to return is the thought of the teen when they think of the ranch, then we have met our goal. (Revised 10/29/2012)

To this end, our program combines a positive peer culture, caring staff, careful medical treatment, individualized psychotherapy and education, and numerous activities including our unique equestrian program. The peer culture uses the power of positive peer influence to address behavioral problems. Because many of the students who come to us have experienced significant trauma, our treatment team is specially trained to address these issues within our safe, structured, and nurturing environment. An emphasis on family therapy fosters successful reunification with families. Two therapeutic group homes give students the opportunity to re-enter society, living in nearby communities and getting part time jobs if they wish, while continuing their treatment and education on campus. TIS ART CENTER AND GALLERY

CONTACT:
Phone: Patti Ortiz (928) 775-0223
Address: 105 S. Cortez Street, Prescott, AZ 86303
E-mail: tisartmarketing@gmail.com • Web site: http://www.tisartgallery.com

MISSION:
It is, Inc. (dba 'Tis Art Center and Gallery) was established for the promotion of local artists and various styles of art, to teach art and to make art economically available to the Prescott community.

AGENCY SELF-DESCRIPTION:
Over the last two decades, art programs in many school systems have fallen victim to massive budget cuts. In many instances, they are no longer taught by teachers with art education certification. In others, the art program has been completely removed. Numerous studies have shown that students with exposure to the arts—whether it is visual, performance-oriented or musical, develop to a higher level academically than those without the opportunity for creative expression.

Art stimulates areas of the brain which other activities don’t reach. It encourages curiosity and the use of imagination which, in the long run, provides high-level thinking skills within and outside the field of art. It gives us that innate desire to create. Art is crucial in the development of cultural awareness. It provides individuals with a pictorial history that reflects the values of the time. Comparing our culture to other cultures, whether they are current or from the past enables us to see our own culture more clearly. Art heightens our sensitivity to the world around us. It teaches us to use and integrate our sense of sight, sound, touch, taste and smell. It teaches us about our environment and the way things work.

SPECIAL COMMUNITY PROGRAMS:
Artist Workshop Scholarship Funds: providing children and adults with financial needs free tuition to our artist workshops.
Secrets: A Map to Prescott’s Public Art Treasures provides the community with a guide to historical and contemporary public art pieces. It was created in conjunction with 2012 Arizona Centennial celebration. Updated editions will continue to be available.
Steps: A Children’s Afterschool Art Education Program provides biannual curriculum based art classes free of charge. (Revised 10/12/2012)

Other services offered in addition to safe haven include case management; individual counseling for women and children; groups focused on domestic violence, legal issues, parenting, relaxation, cooking and more; legal advocacy; and a children’s program.

Transitional Housing: Transitional housing provides a step between shelter and fully independent living. Transitional housing subsidies and ongoing staff support are typically offered to residents for three to six months. Youth Outreach: These services are provided through the YES (Youth Empowerment Services) Program. This program provides outreach and intervention to at-risk youth as well as educational groups focused on issues of self-esteem, dealing with feelings of anger and aggression without resorting to violence, and making healthy choices. Legal Advocacy: The legal advocacy program is staffed by two lay legal advocates, both of whom are bilingual. The program serves individuals and families in the shelter and throughout the Verde Valley who have civil legal concerns related to domestic abuse. Assistance with obtaining orders of protection, and preparation for and accompaniment to court appearances are among the many services offered. MISSION:
Yavapai Big Brothers Big Sisters’ mission is to enhance the lives of children through quality mentoring relationships. Many children grow up without the time, attention and direction they need from caring adults. Through a private, nonprofit organization, screened
volunteers act as friends, mentors and role models to school-aged children who are predominately from single-parent homes. These relationships are supported by a professional staff.

**AGENCY SELF-DESCRIPTION:**
Big Brothers Big Sisters is the single most effective way to positively impact the life of a child. Research tells us that compared to all other youth their age, boys and girls matched with a Big Brother, Big Sister, or Family Match are nearly 40% less likely to get arrested. In addition, compared to their peers, matched youth are:

- 46% less likely to start using drugs
- 27% less likely to start drinking
- 33% less likely to skip a day of school

While youngsters living in single parent families are twice as likely to be arrested, Yavapai County Court records show that our matched Little Brothers and Sisters are arrested nearly 40% less often than all other youth in our community.

Today, there are children in every school and every community throughout Yavapai County and Sedona who are ready to be matched with a “Big.” *(Revised 10/19/2012)*

MISSION:
The LARC-Literary Arts for Rural Communities (formerly known as NORAZ Poets) mission is to provide rural Arizona communities with exposure to events and creative enrichment in literary arts culture. We empower our young people by making poetry more accessible, and help our young people pursue their creative goals through self-development, readings, and performance mediums. Above all, we wish to give back to our community what they have given us—the inspiration and means to create the written and spoken word.

AGENCY SELF-DESCRIPTION:
Young Voices Be Heard gives young people, ages 13-19, the opportunity to gain greater self-esteem, expand cultural awareness and give back to their community through the powerful vehicle of spoken word poetry. (Revised 11/26/2012)
