

ACKER PARK DEVENTION BASIN DESIGN PROJECT

September 3, 2015

Per the Tenney Ranch Development Agreement, a detention basin is to be designed in association with the Tenney Ranch development by the City in the southern portion of Acker Park. City Public Works Staff will need to review the hydrology for the area and development and design the regional detention basin. Coordination will be needed with the Acker Parker Board of Trustees regarding the amount of land needed for the basin and the design characteristics. Public outreach and meetings are required (a minimum of two meetings, one with the Acker Park Board of Trustees). The City is currently in preliminary design of the regional detention basin.

The design is anticipated to be completed in the Summer of 2016.
