

# ROADWAY PROJECT

## ROBINSON DRIVE IMPROVEMENTS PROJECT

***NOVEMBER 1, 2015***

The Robinson Drive Improvements Project consists of the reconstruction of Robinson Drive from Gurley Street to the County boundary south of Newport Drive, including water and sewer improvements. Water improvements are to be extended approximately 900 feet into the Yavapai County portion of Robinson Drive.

Shephard-Wesnitzer Engineering originally worked on the design in 2006 but the project was deferred due to budgetary constraints. Contract negotiations are currently underway with Shephard-Wesnitzer Engineering to complete the plans, to include extending water system replacement approximately 900 feet into the County portion of Robinson Drive.

Approval of an engineering design contract is tentatively scheduled for November 10, 2015.
