PROJECT UPDATE

Project Name:

White Spar Waterline Relocation

Date:

December 27, 2013

White Spar Waterline Relocation Project: The White Spar Waterline Relocation project, from Copper Basin Road. to Apache Drive will include the installation of new 12-inch waterline on SR89-White Spar Road from Copper Basin Road to Apache Drive in advance of the upcoming ADOT road improvement project. Additional improvements shall include installation of new water meters, fire hydrants, tie-ins to existing water mains and services, and removal of an existing 6-inch water main within the same corridor.

Next week the contractor will begin a relocation of the existing water line at Limberlost in advance of the installation of a new storm drain structure.

Questions regarding the project should be addressed to the City Project Manager, Tim Sherwood at (928) 777-1130 or email to tim.sherwood@prescott-az.gov
