PROJECT UPDATE

Project Name:

White Spar Waterline Relocation

Date:

February, 2014

White Spar Waterline Relocation Project: The White Spar Waterline Relocation project, from Copper Basin Road. to Apache Drive will include the installation of new 12-inch waterline on SR89-White Spar Road from Copper Basin Road to Apache Drive in advance of the upcoming ADOT road improvement project. Additional improvements shall include installation of new water meters, fire hydrants, tie-ins to existing water mains and services, and removal of an existing 6-inch water main within the same corridor.

The contractor has completed the installation of all new water lines on the project. Crews will be paving trenches next week and cleaning up in preparation for a final inspection.

Questions regarding the project should be addressed to the City Project Manager, Tim Sherwood at (928) 777-1130 or email to tim.sherwood@prescott-az.gov
