# ROADWAY PROJECT

## Wickwood Lane Drainage Improvement Project

The project consists of removal of an existing 36-inch diameter CMP Culvert and installation of three 42-inch diameter HDPE culverts with headwalls, safety railing, drainage improvements to the road and road improvements with aggregate base course and gravel road cover.

The project is currently out to bid and is expected to be presented to City Council at the April 5<sup>th</sup> Council Meeting.

Construction is anticipated to start in mid to late April, 2016.
