

**CITY OF PRESCOTT
PUBLIC WORKS DEPARTMENT**

TRAFFIC BULLETIN

Today's Date:	7/27/2012
Location:	The Intersection of Willow Lake Road and Willow Creek Road
Description of work performed and traffic impact:	Earth Resources Corporation mobilized materials and equipment on March 12 th . The contractor has constructed the new 14-inch transmission main at the east boundary of the project just east of Lake Side Village Road. The Contractor has installed a new water transmission main under the Willow Creek bridge on Willow Creek Road and has crossed the creek with the new water main and grade control structures. Pipe line installation will progress into Willow Lake Road several hundred yards east of the Willow Lake Road and Willow Creek Road intersection. Please watch for heavy construction traffic, flagmen and possible sudden stops between Willow Lake Road and Mogollon Road and around the Willow Creek Bridge on Willow Creek Road. The contractor will maintain access to businesses and private residences.
Effective Dates:	July 27 th to August 3 rd , 2012
