PROJECT UPDATE

Project Name:

Zone 24 Water Utility Improvement Project – Replacement of Upper Thumb Butte Reservoir

Date:

October 29, 2010

CLM Earthmovers was awarded the construction project for the Zone 24 Water Utility Improvement Project to Replace the Upper Thumb Butte Reservoir. The project will replace the existing 100,000 gallon storage reservoir located north of Lookout Lane within the Thumb Butte Estates area with a new 500,000 gallon reservoir at the existing location.

Construction will include grading and rock removal at the driveway area and reservoir site, removal of the existing reservoir, installation of the new reservoir, installation of a new water line in the driveway with a connection in Lookout Lane, concrete for the reservoir base and driveway, construction of retaining walls and drainage improvements.

Attached is the truck route map to the project site from Thumb Butte Road. If you have any questions or concerns regarding the project please contact the City Project Manager, Jeff Low at (928) 777-1643 or Connor Moody at (928) 445-1918. After hours calls should be directed to Connor Moody at (928) 925-2270.
