

# CONSTRUCTION ALERT

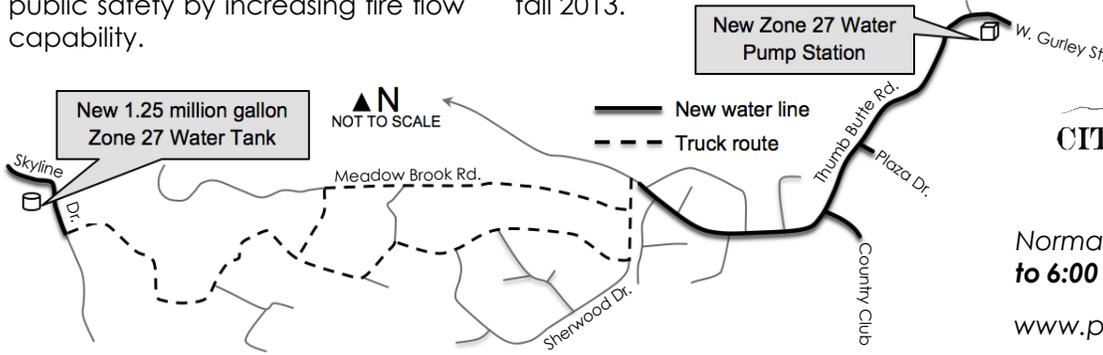

## Zone 27 Water System Improvements Project

The City of Prescott is starting construction to upgrade water service utilities in the downtown area. This project will upgrade and improve various distribution mains and the pump station within water system Pressure Zone 27. Replacing aged and undersized facilities helps us meet current and future water demand, as well as enhance public safety by increasing fire flow capability.

Please be aware that water mains will be constructed along W. Gurley Street, Thumb Butte Road, Skyline Drive, and Country Club Circle. Additionally, a new pump station will be constructed on W. Gurley Street near the intersection at Josephine Street to meet future water capacity needs. Construction is anticipated to be complete by fall 2013.

The City of Prescott will make every effort to keep the traveling public, local businesses, and residents informed of construction impacts.

For questions or concerns, or to receive project updates, call our **Project Hotline at 541-7825** or email [cityofprescott@esmaz.com](mailto:cityofprescott@esmaz.com).

Normal work hours will be **7:00 a.m. to 6:00 p.m., Monday through Friday.**
