Prescott developing industrial pretreatment program

FOR IMMEDIATE RELEASE

PRESCOTT, AZ (February 7, 2013) – The City of Prescott is developing a pretreatment program that will establish standards for the wastewater system as mandated by the Environmental Protection Agency (EPA) and the Arizona Department of Environmental Quality (ADEQ). The program will be implemented through a public process including meetings for commercial and industrial users. A public notice and hearing is anticipated for March/April 2013 to receive comments regarding the proposed program.

For more information about this program you may contact the City of Prescott Public Works Department at (928)777.1130 or visit www.cityofprescott.net.
