The undersigned, under penalty of perjury, does hereby certify that all improvements made to the above project, at the address as stated above, by means of the building or improvement of structures or appurtenances of such property, have been performed by a duly licensed contractor unless the entire structure is intended for the undersigned's sole occupancy as owner and no part is provided for occupancy by the public, employees or business visitors and no part of the premises are intended for sale or rent.

I understand the owners who sell or rent property not completed with a licensed general contractor, may be subject to a Class 1 Misdemeanor under Arizona Revised Statutes § 32-1151 and § 32-1154. A Class 1 Misdemeanor is punishable by a fine not to exceed \$2500.00 and/or one year in the County jail. I understand and acknowledge the above certification.

1. It is the responsibility of the owner or contractor to field verify ALL UTILITY MAINS prior to construction.
2. Any improvement in City right-of-way requires permit issued by City Engineering Department per Ordinance #1338.
3. No structure shall encroach onto any easement or right-of-way. Driveway entrance may require dip section or minimum 12 inch corrugated metal pipe.
4. **DO NOT ALTER SIDEWALK. SIDEWALK MUST MEET AMERICANS WITH DISABILITIES ACT (ADA) STANDARDS.**
5. All mailbox installations must be to City of Prescott standard detail 1-08. Any deviation must be specially permitted by the Engineering Department.
6. Approval of the Planning & Zoning Department is subject to all other easements, encumbrances, etc. or restriction which may apply to said property by virtue of any City Ordinances and/or state law and deed restrictions. The City takes no responsibility for said restrictions or requirements and the burden to comply with such restrictions lies solely with the property owner and/or applicant.

I, \_\_\_\_\_, the owner's agent or the owner of record, for the structure to be located at:

\_\_\_\_\_, parcel number \_\_\_\_\_, do certify that the structure will meet all required setbacks, the property corner pins are correct and the footings are excavated upon the property as shown on the City approved site plan. **If for any reason any deviation from the approved site plan becomes necessary, a revised site plan will be submitted for approval before any additional construction takes place.**

Signature Printed Name Date

EXEMPTION FROM LICENSING

I am exempt from Arizona contractors' license laws on the basis of the license exemptions contained in A.R.S. Sec. 32-1121A., namely:

A.R.S. Sec. 32-1121A.5 – I am the owner/builder of the property and the property will not be sold or rented for at least one year after completion of this project.

A.R.S. Sec. 32-1121A.6 – I am the owner/developer of this property and I will contract with a licensed general contractor to provide all construction services. All contractors' names and license numbers will be included in all sales documents.

Other – \_\_\_\_\_  
(Please specify)

I understand that the exemption provided by A.R.S. Sec. 32-1121A.14 (the Handyman Exemption) does not apply to any construction project which requires a building permit and/or the total cost of materials and labor are \$750 or more.

\_\_\_\_\_  
Signature Printed Name Date

Falsification of information on this document for the purpose of evading State licensing laws is a Class II misdemeanor pursuant to A.R.S. Sec. 13-2704

**IF YOUR PROPERTY IS LOCATED WITHIN THE WILDLAND URBAN INTERFACE ZONE YOU ARE REQUIRED TO HAVE A VEGETATION MANAGEMENT PLAN**

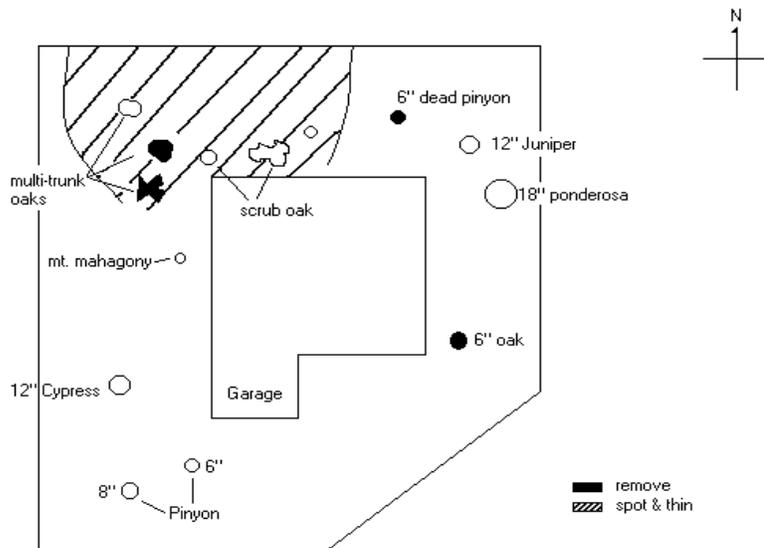

**VEGETATION MANAGEMENT PLAN TIPS**

Map out the basic footprint of the house, trees (diameter of trunk included), shrubs, and groups of shrubs, lot lines, and any pertinent distances. One possibility on this type of plan is to color code the vegetation. For instance: Blue = native vegetation to be irrigated, Shaded in = to be removed, open space with diagonal slashes = spot and thin\*. With this type of plan a legend would need to be included on the property depiction.

Another option would be to include a detailed written explanation, with a property illustration, which calls out the action to be taken. It is not necessary but would be helpful if the written explanation is broken up into the appropriate zones.

Site plans currently submitted to the building department on 8.5 x 14 sheets of paper are big enough for the purposes of a vegetation management plan. Any additional detail for the vegetation management plan should be supplied on a copy of the site plan. **MAKE A SEPARATE COPY FOR VEGETATION MANAGEMENT PURPOSES.** Do not place vegetation information on the site plan required by the building department.

Below is a sample vegetation management plan.

South facing side = no modification necessary

South West Corner = limb up pinon pines and clear ladder fuels w/I 10' of the canopy

West facing side = spot and thin in order to create more open space and decrease fuel load, leave mountain mahogany and hydrate along with landscaping, remove multi-trunk oak near northwest corner, Remove 3 trunks of oak off north west corner (1-2", 1-3", 1-5"), leave two 6" trunks behind but limb up and remove ladder fuels w/I 10' of canopy.

North facing side = limb up scrub oak and reduce number of trunks by 50%, spot and thin area of heavy vegetation in order to create more open space and reduce the amount of fuel, limb up all trees and remove ladder fuels w/I 10' of tree canopies, remove dead pinyon pine (6" dia.).

North east corner = remove vegetation from base of juniper and ladder fuels w/I 10' of canopy (scrub oak to east of juniper not on property),

East facing side = break up ladder fuels under ponderosa by reducing the height of scrub oak at base so that the space between the lowest branches of the ponderosa and the top of the oaks equals three times the height of the scrub oak, remove oak w/ mistletoe near southeast corner.

\* spot and thin: significantly reduce (50% -70%) the fuel load by creating more open space, selecting the best specimens, isolating those specimens per the Wildland Urban Interface Code, thinning existing shrubs by reducing the amount of trunks.

**IF YOU ARE UNSURE WHETHER YOUR PROPERTY IS IN THE WILDLAND URBAN INTERFACE ZONE, OR HAVE QUESTIONS RELATED TO A VEGETATION MANAGEMENT PLAN, PLEASE CALL THE CITY OF PRESCOTT FIRE DEPARTMENT AT (928)777-1760.**

**CITY OF PRESCOTT FIRE DEPARTMENT

---

**(FOR INFORMATION ONLY)**

**When is a Residential Fire Sprinkler System Required?**

Residential Fire Sprinkler Systems are required for many homes within the City of Prescott. **Please answer the questions below assist in determining whether a fire sprinkler system will be required for this project.**

**Please check all that apply:**

- | <u>Yes</u>               | <u>No</u>                |   |
|--------------------------|--------------------------|---|
| <input type="checkbox"/> | <input type="checkbox"/> | Is the square footage of the structure, including unfinished space/garage/storage areas greater than 5,000 square feet?   |
| <input type="checkbox"/> | <input type="checkbox"/> | Is the Fire Department access road obstructed by a low water crossing without an approved secondary access?   |
| <input type="checkbox"/> | <input type="checkbox"/> | Is the building located in subdivision with more than thirty (30) units, which provides only one ingress/egress access road?  |
| <input type="checkbox"/> | <input type="checkbox"/> | Is any portion of the Fire Department apparatus access road greater than 12%?   |
| <input type="checkbox"/> | <input type="checkbox"/> | Is the closest fire hydrant more than 500 feet from the building site?  |
| <input type="checkbox"/> | <input type="checkbox"/> | Is there less than 1,000 gallon per minute (GPM) hydrant flow available to this site?   |
| <input type="checkbox"/> | <input type="checkbox"/> | Is the building site located on a dead end road that exceeds 1,300 feet from the nearest thoroughfare intersection?   |
| <input type="checkbox"/> | <input type="checkbox"/> | Is the most remote point of the building greater than 150 feet from the closest point on a fire apparatus access roadway (street) or fire lane? (Draw a line up the driveway from access roadway (street) around the building, not through it, to the center of the most remote portion of the building) from each direction. |
| <input type="checkbox"/> | <input type="checkbox"/> | Is the structure higher than two (2) stories as defined by the building code?   |

**If you have checked “Yes” to one (1) or more of the items on the above list a Residential Fire Sprinkler System will be required for this building permit. If you have answered “No” to all of the above questions or are unsure of the your answers to the above questions, please call the City of Prescott, Fire Prevention Specialist at (928)777-1760 to verify that a Residential Fire Sprinkler System will not be required prior to submitting your building permit application.**

**No residential building permit will be issued that is required to have a Fire Sprinkler System without a Fire System Plan being submitted and approved by the City of Prescott Fire Marshal first.**

If a Fire Sprinkler System is required, please submit an application and five (5) sets of Fire Sprinkler Plans to the Fire Marshal directly at 2086 Willow Creek Road, Prescott, AZ 86305. Applications and plans for Fire Sprinkler Systems are **NOT** submitted to the Building Department.

All Fire Sprinkler System Plans must be:

- Prepared and sealed by an Arizona registrant, NICET level III or IV per NFPA 13.
- Prepared and sealed by an Arizona registrant, NICET level II or higher per NFPA 13D or 13R.
- Installed per the 2003 International Fire Code, as amended by City of Prescott, NFPA 13 and other national standards that may apply.

Description of Construction Check one of the following.

**Automatic Sprinkler System Plans, 3 Sets for Commercial, 4 Sets for Residential**

All automatic sprinkler systems shall be installed per the 2003 International Fire Code, as amended by City of Prescott, NFPA 13 and other national standards that may apply.  Modifications of up to 20 heads.

Modifications greater than 20 heads.  Single Family & Duplex Residential sprinkler system plans.

An Arizona registrant, NICET level III or IV must seal NFPA 13 plans.

An Arizona registrant, NICET level II or higher must seal NFPA 13D and 13R systems.

**Automatic Fire Alarm System Plans, 3 Sets**

All commercial fire alarm systems shall be installed per the 2003 International Fire Code as amended by City of Prescott, NFPA 72 and other national standards that may apply. Modifications of  or more devices. Arizona registrant or NICET Level III or higher must seal plans. Installation requires NICET Level I on site during installation, inspection, repairs and testing.

**Underground Fire Line Plans, 3 Sets**

All underground fire lines shall be installed per the 2003 International Fire Code as amended by City of Prescott, NFPA 24, YAG Standards and other national standards that may apply. All plans must be sealed by an Arizona registrant.

**Kitchen Hood Suppression System Plans, 3 Sets**

All kitchen hood suppression systems shall be installed per the 2003 International Fire Code as amended by City of Prescott, and other national standards that may apply. Installations requiring more than one inspection and performance test will be charged an additional \$50 for each subsequent inspection. Plans for the hood and duct shall also be submitted to the City of Prescott Building Department for review under a separate permit.

**Paint Spray Booth Suppression System Plans, 3 Sets**

All paint spray booth suppression systems shall be installed per the 2003 International Fire Code as amended by City of Prescott, and other national standards that may apply. Installations requiring more than one inspection and performance test will be charged an additional \$50 for each subsequent inspection. Plans for spray booths shall also be submitted to the City of Prescott Building Department for review under a separate permit.
