

WATER CONSERVATION REBATE PROGRAM RULES

201 S. Cortez St. Prescott, AZ 86303
 Phone (928) 777-1645; FAX (928) 777-1255
 water.smart@prescott-az.gov

- The Water Conservation Rebate Program is designed to encourage residents and businesses to conserve water by providing financial incentives (rebates) for retrofitting existing, less efficient water-use devices, and replacing higher water-use landscaping.
- This applies to the retrofit of plumbing fixtures **installed prior to January 1, 1995**, to the removal of high water consuming landscaping which **existed on or before January 1, 2007**.
- All incentive awards require and are subject to the submittal of complete applications and determination of eligibility and qualifications by the City.
- Credit shall be authorized only to the utility accounts where the water saving features are installed.
- The incentive program is provided on a first come, first served basis, subject to the availability of budgeted funding. Applicants are responsible for confirming the availability of funding for incentive awards prior to submittal of their applications, which information can be obtained by contacting the Water Resource Coordinator.
- No applicant shall be entitled to more than one-half (1/2) of the monies remaining available for this program at any time during a fiscal year. Total incentives granted for a property shall be limited to \$2,500.00.
- Incentive awards will be credited on water bills for the applicable properties within three billing cycles after approval.
- Incentives shall be administered in accordance with the following Rebates list and qualifying criteria:

WATER CONSERVATION REBATES	
Drip system installation: Completed system must include an automatic timer, approved backflow prevention device, and a drip irrigation system.	\$75.00
Landscape Health Check: Application must include the paid invoice signed by a certified landscape irrigation auditor and completed audit documentation.	\$75.00
Rainwater harvest: Requires the installation of a minimum 100-gallon capacity rainwater catchment tank or engineered cistern.	\$ 0.50 per gallon of storage \$500.00 maximum award
Turf removal: Requires conversion from irrigated turf grass to water saving landscaping. Minimum turf removal areas are 200 square feet for residential and 1000 square feet for non-residential.	\$0.25 per square foot \$400.00 max per residential \$800.00 maximum commercial
High efficiency toilets (replacement units 1.6 gallons or less per flush; 2 units max)	\$50.00
Commercial urinals (replacement units 1.0 gallons or less per flush, or flushless design)	\$50.00
Rotator spray head replacement (minimum of 12 heads replaced)	\$2.00 per head/ \$40.00 max
Leak repairs (one time benefit per property)	\$5.00 per leak/\$25.00 max
Showerheads (not to exceed 2.4 gallons/minute)	\$10.00
Other qualifying low flow-low tech Water Smart device	\$10.00
