

ZONE 56/76 PUMP STATION UPGRADE PROJECT

October 18, 2018

The project has been designed by Kelley-Wise Engineering and the construction contract awarded to Technology Construction. Construction started on February 5, 2018 and is anticipated to last 240 Days.

The contractor has finished water main installations, installing the Zone 56 pump skids (to service the pressure zone area), and installed the Zone 76 pump skids (servicing the Prescott Resort). The new pumps are currently working for the pressure zone. Additional work to be completed is to finalize all building remodeling, change over APS electricity and pave disturbed areas of Heather Heights Road and the parking area.
