

PUBLIC WORKS

ROADWAY PROJECT

Yavapai Hills Drainage Improvement Projects

May 6, 2019

The project consists of various drainage improvements within the Yavapai Hills Subdivision. The projects have been split into two separate bid packages in an effort to obtain more competitive bidding for the construction projects.

- Bid Proposal #1 is to add a valley gutter in Hummingbird Way at the entrance to the clubhouse to reduce drainage from overtopping to the road into the clubhouse parking area. Earth Resources will be construction the new valley gutter in early May 2019.
- Bid Proposal #2 includes the construction of four drainage grates to reduce the amount of flow on Hornet Drive between Rough Rider Drive and Sharp Shooter Way. The design is being completed by Civiltec Engineering and a Job Order Contract (JOC) is anticipated to be completed in early May. The project is scheduled to start construction during the week of May 20th.
