# ROADWAY PROJECT

## Yavapai Hills Drainage Improvement Projects

***JUNE 7, 2019***

The project consists of various drainage improvements within the Yavapai Hills Subdivision. The projects have been split into two separate bid packages in an effort to obtain more competitive bidding for the construction projects.

- Bid Proposal #1 is to add a valley gutter in Hummingbird Way at the entrance to the clubhouse to reduce drainage from overtopping the road into the clubhouse parking area. Earth Resources has completed construction of the new valley gutter.
- Bid Proposal #2 includes the construction of three drainage grates to reduce the amount of flow on Hornet Drive between Rough Rider Drive and Sharp Shooter Way. The design has been completed by Civiltec Engineering and a Job Order Contract (JOC) was awarded to Fann Contracting with the Notice to Proceed issued on May 28<sup>th</sup>. The project is scheduled to be completed in July.
