

State Route 89 Pavement Repairs Project

SUMMER 2019

The City of Prescott has reached substantial completion of the State Route 89 Pavement Repairs Project. Improvements consisted of asphalt milling and paving, and chip sealing operations along State Route 89, from just south of the newly installed roundabout near the Phippen Museum to the Willow Lake Road Roundabout. These improvements have successfully improved the driving surface and extended the life of the roadway into the foreseeable future.

The City is proud to bring improvements such as this to the Prescott Community and appreciate your support as crews have worked to complete this project.
