

PUBLIC WORKS

ROADWAY PROJECT

Penn Avenue/Eastwood Drive Improvements

AUGUST 5, 2022

Granite Basin Engineering is the design engineer for the project. Third party utility relocations are complete. The design engineer has been tasked with updating the plans and bid documents to include the as-built relocations by the utility providers.

The construction contract was awarded to Fann Contracting, Inc. at the April 26, 2022, City Council meeting. The contractor has started clearing the detention basin area to create a staging yard for materials and equipment. Construction may be delayed due to supply chain issues.
