

UTILITY PROJECT

Sundog Trunk Main Phase B Project

SEPTEMBER 3, 2020

The design for Sundog Trunk Main Phase B has been awarded to Lyon Engineering. The design for the associated Highway 89 Lift Station has been awarded to Water Works Engineers. The project will construct a new lift station on the Veteran's Administration property adjacent to SR 89 and run along Highway 89 to align with the new force main to the eventual gravity main outfall at Highway 89 and Lillian Lane.

Both project designs have been completed. Prior to construction, easements will need to be acquired from the Yavapai-Prescott Indian Tribe. For the Highway 89 Lift Station, easements have been obtained from the Veteran's Administration Department.
