

UTILITY PROJECT

Quaka Water Main Replacement

MAY 4, 2022

The Quaka (Yavapai Tribal word for deer) Water Main Replacement design project has been awarded to Rick Engineering. The project includes the upsizing and replacement of the water main between Highway 89 – Prescott Resort entrance road and the Yavpe Connector Road to Sundog Ranch Road. The project is a joint project associated with a new connector road on the Yavapai Prescott Indian Tribe (YPIT) Reservation.

The design is complete. The City needs to obtain easements from YPIT prior to bidding the construction project.
