D. Next Steps

a. New Terminal Opening

Commissioner Ron Miller contacted both artists for required Art in Public Places approval forms. He is waiting
for the documents to be notarized and then can move forward with putting them up for a vote through the
Art in Public Places Committee. Commissioner Nicole Sorenson read the email sent by Ron Miller to Airport
Staff which summarized in more detail the steps he has taken to move the artwork forward but that the Artists
are struggling to find notaries and it should be taken care of soon. Commissioner Frank Newman inquired if
notarized signatures are required and Commissioner Cindy Gresser stated it is a legal requirement.
Commissioner Margo Christenson voiced that she has a coworker with notary capabilities and that Ron and
Nicole can arrange appointments with them at their convenience.

b. Bronze Statue

Commissioner Mike Gjede is meeting with Friends of the Airport to seek their support to fund the bronze
statue and outline why receiving smaller amounts of funding is necessary to relieve airport from funding any
more items.

Commissioner Cindy Gresser communicated that she has no further updates or changes regarding her funding
sources but that more information should come next fiscal year.

E. Process Review

a. Selecting Cohesive Pieces

Frank tabled this item for the next meeting and requested that Nicole and Ron present their opinions on all art received so far at the next meeting.
