

UTILITY PROJECT

Chino Production Well Rehabilitation Program Well No. 3

MAY 4, 2022

Production Well No. 3 is one of the key components in the City's water production facilities. The well house, the electrical controls, and the HVAC components are beyond their useful service life and require rehabilitation and/or replacement. Production Well No. 3 is located in Chino Valley, near the intersection of Road 2 North and Road 1 East. Elements of the project include the rehabilitation of the well itself, the well site, and associated facilities and equipment.

Plans are complete. The Guaranteed Maximum Price (GMP) is in for final approval, and scheduled to go before City Council this month.

The start of construction is anticipated for October 2022.
