

# UTILITY PROJECT

## Chino Production Well Rehabilitation Program Well No. 3

*JUNE 6, 2022*

Production Well No. 3 is one of the key components in the City's water production facilities. The well house, the electrical controls, and the HVAC components are beyond their useful service life and require rehabilitation and/or replacement. Production Well No. 3 is located in Chino Valley, near the intersection of Road 2 North and Road 1 East. Elements of the project include the rehabilitation of the well itself, the well site, and associated facilities and equipment.

Design plans are complete. The construction contract is scheduled to go before City Council at the June 14, 2022 meeting.

Utility conflict relocation work will begin early June. Construction is anticipated to begin in October 2022.
