## Chino Production Well Rehabilitation Program Well No. 3

***NOVEMBER 5, 2022***

Production Well No. 3 is one of the key components in the City's water production facilities. The well house, electrical controls, and HVAC components are beyond their useful service life and require rehabilitation and/or replacement. Production Well No. 3 is located in Chino Valley, near the intersection of Road 2 North and Road 1 East. Elements of the project include the rehabilitation of the well itself, the well site, and associated facilities and equipment.

The City's contractor, Fann Environmental has completed 60% of the site grading and is working on demolition of the old well building.
