

UTILITY PROJECT

Wildwood Lift Station Abandonment

MAY 1, 2022

The project will replace an old, outdated lift station, which is located behind properties along Highland Terrace (within the Wildwood Estates Subdivision). Due to its location, the lift station is very difficult to access and maintain. The City is planning to abandon the lift station, and reroute sewer lines to a proposed new gravity sewer main extended from Wildwood Drive.

Civiltec Engineering Inc. is the City's design consultant for the project. The city is reviewing concept design drawings with the engineer.
