ROADWAY PROJECT

Crushing of Concrete-Inert Debris Mix & Asphalt Millings Stockpiles

NOVEMBER 1, 2023

The project generally consists of crushing and screening both the existing concrete-inert mix and asphalt millings stockpiles located at the Solid Waste Transfer Station into 1-¼ inch minus material. Crushed materials will be stockpiled for future use.

The construction contract was awarded to Earth Resources on August 22, 2023. Construction started in October 2023. Crushing of the pile of inert concrete materials is nearing completion.
